

From April 2007, I have started selling the unit located on 29th West Street, North Vancouver. Even though it was the seller's market at that time, I have requested 3 agents to help me sell this unit, but all who have been unsuccessful in selling the unit. In the second half year of 2008, the seller's market transferred to the buyers' market, and all friends said to me that now is a difficult time to sell your unit and it will be impossible. At this time, Mr. Stefan Gerber whom I never met, suddenly phoned me and hoped to help me sell the unit. In the situation of the world economic depression, I have already lost my confidence for selling my unit. Therefor, I rejected Mr. Stefan Gerber from the very beginning, but his warm sincere words, his responsible work manner moved me. Finally I asked him to hold the post of my agent. The surprise was that through his hard work, the unit was sold unexpectedly in just two months! I was very happy! I'd like to say my very thanks to Mr. Stefan Gerber. At the same time, I would also like to tell you if you need a agent to help you sell the house during this period of time I will recommend you.
agent Mr. Stefan Gerber.
